

Biologie du Lapin

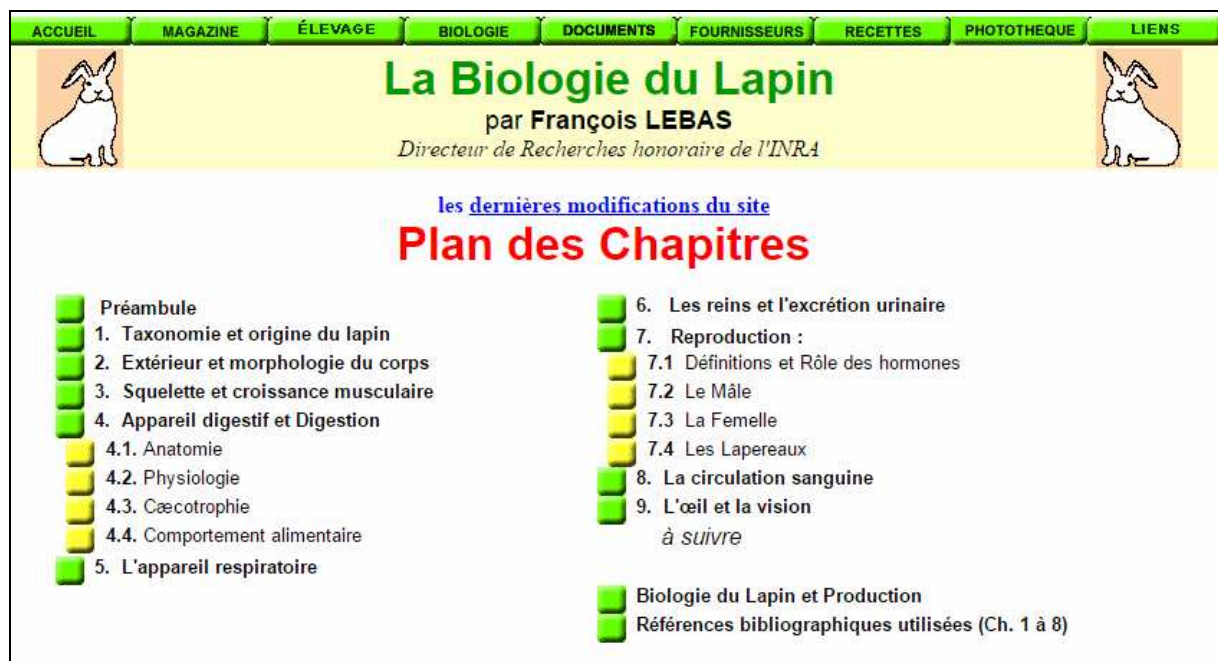

Rabbit biology

par / by

François LEBAS

2002- Association *Cuniculture*

This is an online document written in **French** available, with free access, at the URL
<http://www.cuniculture.info/Docs/indexbiol.htm>
written in 2002 and posted in 2006

The screenshot shows the website interface for 'La Biologie du Lapin'. At the top, there is a navigation menu with buttons for ACCUEIL, MAGAZINE, ÉLEVAGE, BIOLOGIE, DOCUMENTS, FOURNISSEURS, RECETTES, PHOTOTHEQUE, and LIENS. Below the menu, the title 'La Biologie du Lapin' is displayed in green, followed by 'par François LEBAS' and 'Directeur de Recherches honoraire de l'INRA'. Two small rabbit illustrations are on either side. The main content area features the text 'les dernières modifications du site' and a large red heading 'Plan des Chapitres'. Below this, a list of chapters is presented with colored square icons: green for chapters 1, 5, 6, 8, and 9; yellow for chapters 2, 3, 4, 4.1, 4.2, 4.3, 4.4, 7, 7.1, 7.2, 7.3, and 7.4. The list includes: 1. Taxonomie et origine du lapin; 2. Extérieur et morphologie du corps; 3. Squelette et croissance musculaire; 4. Appareil digestif et Digestion (with sub-chapters 4.1 to 4.4); 5. L'appareil respiratoire; 6. Les reins et l'excrétion urinaire; 7. Reproduction (with sub-chapters 7.1 to 7.4); 8. La circulation sanguine; 9. L'œil et la vision (à suivre). At the bottom, there are two more items: 'Biologie du Lapin et Production' and 'Références bibliographiques utilisées (Ch. 1 à 8)'.

A direct access is possible to each of the different chapters

- 1/ -Taxonomy and origin of rabbits -
- 2/ - External presentation of a rabbit and morphology
- 3/ - Skeleton and muscles growth
- 4 / - Digestive apparatus and digestion
Anatomy, physiology, caecotrophy, feeding behaviour)
- 5/ - Respiratory apparatus and respiration
- 6/ - Kidneys and renal excretion
- 7/ - Reproduction
definition and role of hormones, the male, the female, the kits)
- 8/ - Blood circulation
- 9/ - Eyes and vision.

In addition a special chapter is devoted to the relations between rabbits biology characteristics and production & productivity.
